Ehsaas Langar & Panagah App available on Google Play Store

July 9, 2020, Andriod version of ‘Ehsaas Langar and Panagah App’ is now available on Google Play Store, providing useful information about Ehsaas Langars (soup kitchens) and Panagahs (shelter homes) across the country. It enables geographic locations of welfare organizations to be mapped when they are photographed through the App, so that there is better coordination of relief efforts and no duplication. Underserved areas will also be identified through the App. The Ehsaas App can be downloaded [here](#). Creating awareness about functions of Ehsaas Langar & Panagah App, Dr. Sania Nishtar, Prime Minister’s Special Assistant on Social Protection and Poverty Alleviation tweeted an instructional video. The video can be watched [here](#).
