

Heartfile at the Third World Network meeting in Malaysia

April 9, 2015: Third World Network (a steering committee member of the Peoples' Health Movement) organised a workshop in Malaysia, Kuala Lumpur on 6-7th April 2015 on universal health care, anti-microbial resistance and access to medicines. This workshop enabled sharing of information on recent trends and developments, country experiences as well as legal analysis on the above mentioned topics. The aim was to deepen understanding about the issues and discuss policy options in order to enhance civil society advocacy and engagement at the national, regional and international levels. The workshop was attended by civil society organisations from certain Asia Pacific countries, particularly from Malaysia, India, Bangladesh, Pakistan, Sri Lanka, Indonesia and Fiji. Dr Saba Amjad, Senior Manager at Heartfile presented the Pakistan Case study Showcasing [Heartfile Health Financing](#)
