

# Keynote Brenner/Dirks lecture at the international conference on Nephrology

April 12, 2019: The international conference on Nephrology was held in Melbourne. At its opening ceremony, Dr. Sania Nishtar delivered the Brenner/Dirks lecture on global health and non-communicable diseases. She spoke about the rising burden of NCDs and the three-pronged response needed to bridge a public health gap. The text of her speech can be accessed [here](#).
