

Sania Nishtar keynotes the SCB Women in Tech event celebrating women entrepreneurs

Sep 21, 2020 – Karachi: Standard Chartered Bank Pakistan invited SAPM Dr. Sania Nishtar to keynote the closing event of Women in Tech program that celebrated aspiring women entrepreneurs. The event announced names of winners of the program. Some seven women led companies won up to Rs 1.5 million in seed grants. Inspiring young women entrepreneurs, Dr. Nishtar remarked, “To ensure that women beneficiaries are not underrepresented, ambition of Ehsaas is to skew critical initiatives towards women, by ensuring that at least 50% of all beneficiaries targeted by the program across initiatives are women. To assist with this, the fifty percent and plus benefits for women are squarely embedded in all 140 Ehsaas programs, police and initiatives.” Standard Chartered had launched Women in Tech (SCWomenInTech) in Pakistan in March 2019. This program is aimed to promote the economic and social development of women in Pakistan through innovation or technology led entrepreneurship.
